

# Fox Tales International

Americana, Ecological & International Storytelling

## *Adventures with Audubon*

Spend an hour in the studio of one of America's greatest naturalists and wildlife artists. Listen to tales of his adventures as he finishes something no one had ever accomplished before: drawing every bird in North America. Audubon will enchant you with stories of his travels and travails in the wildest places on the planet. He will celebrate the natural history of the North America as he saw it in the early 1800s.

Storyteller **Brian "Fox" Ellis** portrays Audubon in these entertaining and meticulously researched monologues drawing from Audubon's journals, essays, and letters to his friends and colleagues. This program was developed with a grant from the USFWS as part of their celebration of the 100<sup>th</sup> anniversary of the National Wildlife Refuge System. Fox has performed as Audubon in museums, nature centers, schools and libraries across the United States, including Audubon's home in Henderson, Kentucky.

**Brian "Fox" Ellis** is an internationally renowned storyteller, author and former middle school teacher. He has been a featured speaker at regional and international conferences on science education and environmental conservation. Fox is the author of eleven books including the newly released **Charles Darwin and His Revolutionary Idea**. For more information please visit [www.foxtalesint.com](http://www.foxtalesint.com).
