

Annual Report 2023 - 2024

SANTA FE ALLIANCE FOR SCIENCE

Our Mission

We inspire the inner scientist in Santa Fe youth by creating STEM learning opportunities through our network of volunteer scientists, engineers, and STEM professionals.

Our Vision

Every Santa Fe student is "STEM ready" to explore and succeed in life.

2023 -2024 school year

What we did -

Science fairs judged - 18
Number of judges - 36
Number of projects - 838
Number of students - 1540

There were also 138 projects and 184 students that were judged again at the District STEM fair.

Our volunteers logged 1986 hours judging at the science fairs in 2024.

Santa Fe High School Engineering Capstone Class – The ten senior students in this program worked with SFAFS mentors to help facilitate the completion of their senior engineering projects throughout the second semester. Projects were presented to the public at the completion of the term.

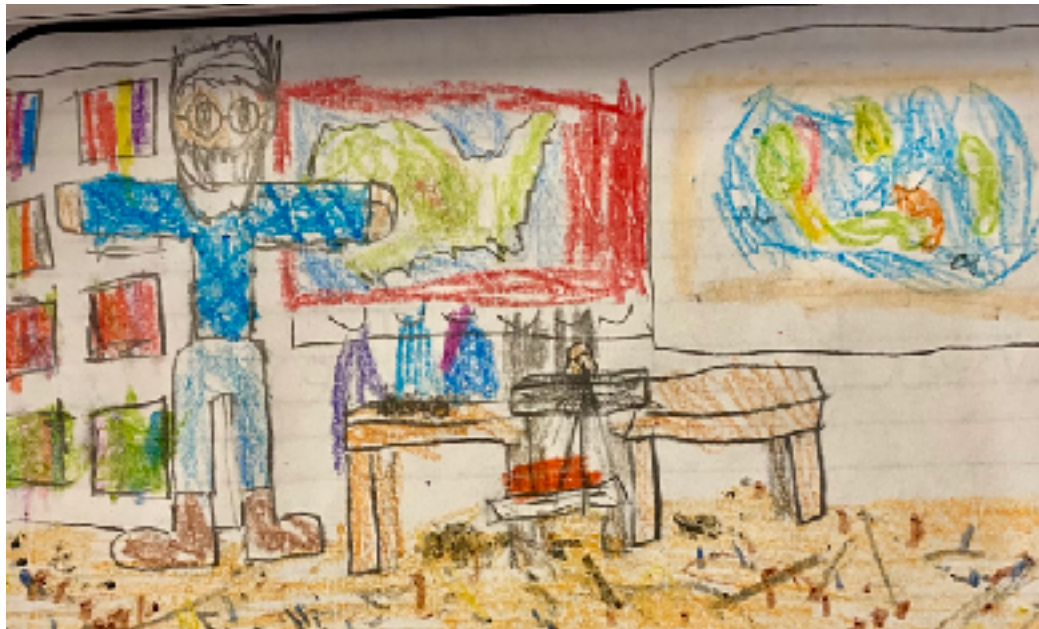

Nina Otero Community School has been adopted by the Alliance and with the support of the wonderful teachers :

- in the summer of 2023 we made 23 visits and presentations of 2 to 3 hours each.

- in the fall of 2023 eleven Alliance volunteers worked with 84 eighth graders over a 4 month period.
- during the school year we made 26 presentations in fourth and fifth grade classes.
- in the spring of 2024 science fair season we worked with teachers and 361 students on 181 projects and 10 class projects.
- during the 2023-2024 school we maintained a two afternoon a week teacher assistant in a second grade classroom

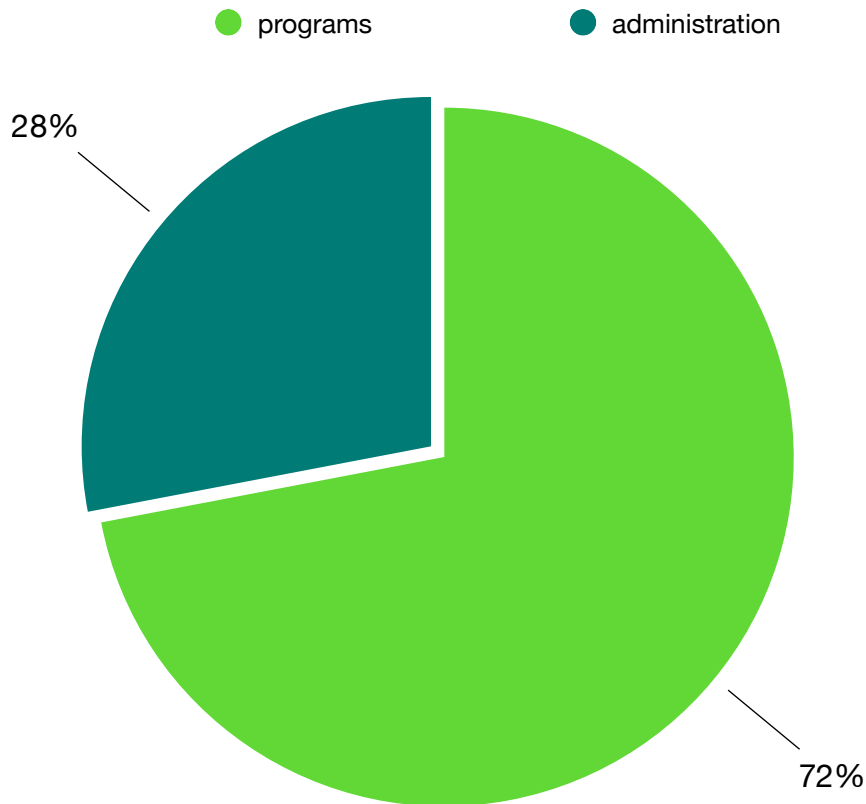

2023 - 2024 school year

What we spent -

\$8241.42 programs 72%

\$3198.21 administration 28%

Total spent \$11,439.63
